Saturday to the chairman of the democratic notification committee:

Charleston, W. Vs., Oct. 23.

Hon W. L. Wilson, Charlman, Erc.—When
I accepted the honor conferred upon me by the
convention over which you presided I promised to indicate by letter in a more formal manmer my acceptance of the nomination tendened
moby the assembled representatives of the
democratic party of the United States. Since
that time I have been engaged continually before the public of many states discussing the
issues empliasized by the convention and
represented by our candidate for
president, Grever Cleveland, Opportunity has thus been denied me to write
with the care I would like to do the more formal answer promised to your committee. The
full discussion of public questions, commoniv
expected from a candidate for vice-president
has been rendered less impornitive by the complete presentation of the democratic creed by
the gentleman with whom I have the homer toplet presentation of the democratic creed by
the gentleman with whom I have the homer tothe associated as a candidate on the national
ticket. His treatment of the issues now before the country for discussion and settlement
was secomplete that I can do little more than
indorse bis position and give it the emphasis of
my unqualified approval

The granest power conferred upon human government is that of taxation All the great struggles of the past for a bronder political liberty have looked towards the limitation of this power—the right to tax—a right which should always be limited by the successives of the government and the benefits of which may be shared by all. Whenever this power is used to draw tribute from the many for the benefit of the fow, or when park of the people are oppressed in order that the remainder may prosper unduly, equality is lost sight of, injustice hardens into precedent, which is used to excess now exactions and there arises artificial distinctions which benefit arises come to look upon in due time as vested rights, sacred to themselves. It is plain that our system of tariff exaction has promoted the growth of such condition in our land, favored though it has been by an industrious and enterprising people, a friendly elimate, a productive soil, and the highest development of political liberty. If the beneficiaries of this system shall be able to add a new tonure of power to those they have already enjoyed, the development of these unfavorable conditions must continue, until the power to tax will be ledged in those who are willing and able to pay for the perpetuation of privileges originally conforred by a confiding people, for the preservation involute of their own government. There is no longer petacts or excess for pasce and more than a quarter of a century after armed conflict has ceased. The platform of the national democratic convention demand the reform of this system and the adoption in its place of one which will insure equality to all our people. I am in full and hearty accord with these purposes.

The convention also delared its position on the currency question in oungeauning words, when it add in the platform: "We hold to the use of both gold and silver as the standard money of the country and to the contange of both gold and silver as the standard money of the contant part with and redeem—

tornational agreement or by such safe-grand of logislation as shall insure the purity of the two metals and the equal power of avery dollar at all times in the market, and in pay-ment of debt and we demand that all paper currency shall be kept at par with and redeem-able in such coin." To this plain and unequivocal doclaration in favor of sound honest money Laubscribe with-out reservation or qualification. As a circula-ting medium a absolutely essential to the pur-toction of the business interests of our coun-ter while to the wave carrier or the farmer the citizens of Ballard, a suburb of this city, hunted Friday night for Police-man Thomas Henry, who had been tried here for murder in the second detection of the business interests of our country, while to he wage-sarner or the farmer it is all-important that every delian, whateve its form, that finds its way into his pocket shall be of equal, unquestioned and universal exchangible value and of equal purchasing power.

Another issue of great moment is the pending enters is the force bill, the magnitude of which cannot be oversitted. It may mean the central of the election of representatives in

which cannot be overstated. It may mean the control of the obselon of representatives in congress by the bayonst. The republican party, by its letts in the Frity-first congress and by its plactor in its lute national convention stands pledged to the passage of this bill. That it will pass it when it has the power no same man can doubt. To all of our people who desire the passage of our common country this constitute is all important. nestion is all important

desire the peace of our common country this
question is all important

Since my nomination I have been in eight of
the senthern and southwestern states of the
Union, and have talked with all classes and
conditions those. I found general and growman apprehensions of evils which it is believed
would result in the peasage of the Lodge bill or
similar threatened legislation.

I find the industries established by northern
capital during Mr. Clovelaud's administration
in a lauguishing condution; that the immigration of labor, and the investment of capital, invited to those states by their then peaceful
condition, and in a large measure coased. The
enactment of a force bull into law, while it
would threaten the liberties of the entire
people would undenstedly retard the
material growth of the states at which
it is especially almed; would inette
in many communities race troubles; and invite
retalkatory legislation, which would disturb
reporty values and discontinue and destroy
the security of northern investments. And its
refer action upon the northern states would
result in a consequent less of commercial and
trade relations with the vast territory now becoming fributary to their wealth and prospority

I say nothing of the inherent vice of the un-American and revolutionary spirit involved in the Lodge bill, which was pronounced by a republican senator "the most infamous that ever crossed the threshold of the senate." I appeal to the instinct of self-interest and common patice in the American people. The era of good feeling and renewed commercial relations, commencing with the election of Mr Clevoland in 1874, should not be interrupted by the inauguration of a policy which touchs to destroy popular representation and the purity of sail-government, which furnished an in-I say nothing of the inherent vice of the

Women Filled the Pulpits of Denver Yesterday. DENVER, Col., Oct. 31.—At Trinity church, yesterday morning, Mrs. Mollie McGee, of Mississippi, delivered the an-nual sermon to the W. C. T. U. The opening exercises were conducted by Miss E. W. Greenwood, of Brooklyn, superintendent of the Evangelistic department, and Ludy Henry Somerset made the opening prayer. Mrs Snell's subject was "The Invitation of God," and her address was one of unusual power. This invitation, she said, was sent out thousands of years ago, but was the same yesterday, to-day and forever, and was intended for every one in every age. She compared this invi-tation to those of men to earthly amusements and entertainments, and how infinitely more worthy of acceptance it was.

The various pulpits of the city were occupied both morning and evening by delegates. Lady Henry Somerset ad-dressed an audience which filled Trin-ity church to overflowing in spite of he heavy rain, while the other therches all had good congregations.

B. K. HAMSHER. | W. F. CATHOUR. AMSHEE & CALHOUN, Prop's

Entered at the Post Office at Decatur, Illino a second class mail matter.

MONDAY EVE., OCT. 31, 1892.

HON. I. R. MILLS, candidate for State's Attorney, in his speech at Maros, completely exposed the duplicity of Mr. Webber, who is trying to deceive the voters by going to one class of people in this county and promising them, if of the law every liquor dealer and gambler and then promising the liquor deulers and gamblers if they will support him and he is elected he will deal eniently by them.

Fixe trade and wild-cat money in this country, must go together. The old man for governor that suited him. The school Democrate who in this campaign leading Democratic papers in the state, have committed their purty to both, daily, forsome time before the convention know this from experience. In the free charged Mike with an intention to foisi trade period from 1846 to 1860 it was upon the Damocracy of the state Mr. necessary to have a currency that no one Altgeld. Those papers knew what was outside of the country would accept in going on and did what they could to payment for anything. Wild-cat currency was that kind of money. The passing into the hands of the boss calance of trade during that period was against us. We were paying out money that in case the boss gambler controlled make up the balences against us, and if nominated for governor should be elected, we had not had a currency the foreigner he would control the administration of would not have we would have been lost the state. This is precisely the state of without any money. So FAR as we know there will be no

opposition to women voting for trustees the Illinois University. In voting, however, judges of election must see that those women who vote have the proper qualifications. No woman who was not born in this country can vote unless she s naturalized; neither can any woman vote who is under 21 years of age. Both these requirements were overlocked in many cases in the election of school directors last spring. Judges must also bear in mind that women must be registered, have separate ballots and their ballots must be deposited in separate boxes, and in no case can they be allowed to enter a voting booth. The word woman" must also be put opposite their smee on the poll book.

JUDGE H. G. WHITLOCK, a life-long Democrat and a leading lawyer of Jacksonville, Saturday night renounced his party in a public address and espoused the principles of the Republican party udge Whitlock cannot go with his party on account of its declarations in favor of vilduat money and free trade. He is no less a Democrat on other issues, but eeming these questions of vital importauce to the people of this country, he refuses to become a party to the present fort of the Democrate to break down he prosperity of the country. There are thousands of good, patriotic Democrats in every state who, like Judge Whitlock, the coming election will be governed by their patriotism, rather than their party prejudice; men who love their per bottle. Sold by all Druggists. Tes country more than they love their party.

In a report of the Taylorville Democratic rally it is said that one of the speakers, Thompson W. McNeely, proved himself as thoroughly posted on the tariff as any Democrat that ever took the stump against McKieley tin and other Republican absordities." By this the stump against McKinley tin and other Republican absorditice." By this it would seem that every Democrat is expected to be unpatriotic enough to fight every effort our people may make to manufacture tin plate, just as the same blind leaders expected every Democrat to rejoice over Confederato victories and deplore Union victories; to discredit every advance made in the American tin industry as they discredited every success made by the Union armies. Such leaders us these bring their party into disrepute and create within the public the suspicion that such leaders need to he suspicion that such leaders need to

He was advised when very much WILLIAM M. SPRINGER, la his Taylorville speech on Saturday, deplored the fact that our exports to foreign countries exceeded our imports from foreign countries, and held that a system which run down to try Bullard's Horehound makes other nations help pay our expenses and enrich our people is discracetal. It requires that class of statesmen to which Springer belongs, to come to Bullard's Horehound Syrup superior to expense system on the mortest and its Billiant a Hornound Syrup superior to noy Cought Syrup on the market, and its freedom from opinu and morphine leave no constitution after using it. For this reason alone I consider it the best Cough Syrup in the world for children. My such silly conclusions. Nothing elso could be expected of men who in 1890, when attacking the McKinley tariff law, told the people that the removal of the lungs are now stronger than they have been for years. In 1860 a lawyer named Milier was beteted prosecuting attorney in the judical eleventeomosed of Marshall, Woodford and Tasewell counties. Miller died before the expiration of his term, and James St. C. Boal of Marshall county was appointed to fill the vacancy. It was during Boal's occupancy of the office that the circumstance related below occurred, and reference to it now is only valuable as showing the attitude of Stevenson toward union soldiers. That Stevenson inspired the indictment of Stevenson toward union soldiers. That Stevenson inspired the indictment by the grand jury and then volunteered his services to prosecute (or, rather, persecute), the case is too well known by hany yet living to admit of a doubt. The event was sensational, at the time, and is still recollected by the soldiers, who, while not vindictive, will not add in honoring a man who lost no opening a man who lost n and a seal reconceded by the soldiers, who, while not vindictive, will not hid in honoring a man who lost no opportunity to insult and abuse them, while they were baring their breasts to ball and bayonet of better men, and more honorable fees, than Slevenson.

The Country Vote. The great conservative force in American politics, is the country, or agricultural class. Here, in quiet homes, removed from the teverish and exciting conditions incidental to city life, the tiller of the soil is content to labor for the returns so prodigally given by Mother Earth to those who apply to her for a living. Too often he is too content for his own good. Loving peace and quiet, he is apt to be unmindful of in-sidious influences at work all around him, which, if left unchecked, will, in a point is this danger more imminent than in the farmer's carelessness as to who in the farmer's carelessness as to who hold the offices and who do the voting. Scarcely ever seeking office himself, he is oblivious of the sharp contests of unserupulous men in the cities and towns, who usually succeed in parceiting out official places to a class not always the most deserving. If hy share good link remitable ing. If by sheer good luck reputable ominations are made, he hardly give it attention enough to go to the and yote, thinking, in his quiet that it will all be right anyhow. No every farmer's quiet home is menaced by the nomination of Altgeld for gov-ernor, who represents all that is de-plorable, disrepatable and dangerous in city politics,—and he is the apologist and mouth-piece for the anarchists as well. ISSUES HIS LETTER OF ACCEPTANCE.

In Which He Pays His Chief a Pretty Compliment and Takes Strong Ground in the Line of the National Democratic Platform.

Charleston, W. Va., Oct. 31.—The following letter of acceptance was sent Saturday to the chairman of the demo-

Saturday to the chairman of the democratic notification committee:

CHARLESTON, W. Va., Cet 20.

How W. L. Wheon, Chairman, W. Va., Cet 20.

How W. L. Wheon, Chairman, Ero.—"Whon I accepted the honor conferred upon me by the convention over which you presided I promised to indicate by letter in a more formal manner my acceptance of the nomination tendered me by the assembled representatives of the democratic party of the United States. Since that time I have been engaged continually before the public of many states discussing the issues emplicatized by the convention and represented by cur candidate for president. Graver Clorohand, Opportunity has thus been denied no to with with the care I would like to do the more formal maswer promised to your committee. The full discussion of public questions, commonly expected from a candidate for two-president has been rendered less impornitive by the complete presentation of the domestic creed by the gentleman with whom I have the honor to associated as a candidate on the national ticket. His treatment of the issues now before the country for discussion and settlemont was so complete that I can do little more than inderes his position and give it the emphasis of my unqualified approval

groutest power conferred upon hugovernment is that of taxation Aleat struggles of the past for a broader
al liberty have looked towards the limief this power—the right to tax—a right
should always be limited by the necessipolitical liberty have looked towards the limitation of this power—the right to anc—a right which should always be limited by the necessities of the government and the benefits of the government and the benefits of the government and the benefits of which may be shared by all. Whonever this power is used to draw tribute from the many for the benefits of the few, or when part of the people are opplessed in order that the remainder may prosper unduly, equality is look sight of, injustice hardens into precedent, which is need to excuss now exactions and there arises artificial distinctions which beneficiaries come to look upon in due time as vested rights, sacred to themselves. It is plain that our system of tar-iff exaction has promoted the growth of such condition in our land, favored though it has been by an industrious and enterprising people, a trivially elimate, a productive soil, and the highest development of political liberty If the boundclaries of this system shall be able to add a new tenure of newer to those they have already onlyived, the development of these unfavorable conditions must continue, until the power to trawill be lodged in those who are willing and able to pay for the perpetuation of privileges originally conformed by a confiding people, for the preservation inviolate of their own government. There is no longer prebate or excuse for the maintenance of a war tariff in times of peace and more than a quarter of a century after armed conflict has ceased. The plainterm of the national democratic convention demand the reform of this system and the adoption in its place of one which will insure equality as all our people I am in full and hearty accord with these purposes.

The convention also declared its position on the currency question in no unmeaning words, when it said in its platform: "We hold to the word of the country and to the coinage of both gold and silver, without discriminating against otitier meals or charge for mininge, but the dollar unit of coinage of both metals must.

both gold and silver, without discriminating against dither metal or change for minings, but the dollar unit of coinage of both motals must be of equal intrinsic and exchangable value or be adjusted through international agreement or by such safeguated of legislation as shall listent the parties of the two metals and the equal power of every dollar at all times in the parket, and in par

dollar at all times in the market, and in payments of debt and we domand that all paper currency shall be kept at pur with and redeemable in such coin."

To this plain and unequivecal declaration in favor of sound honest money I subscribe without reservation or qualification. As a circulating medium in absolutely essential to the protoction of the business interests of our country, while to the wage agree or the farmor it is all-important that every dollar, whatever its form, that finds its way into his pocket shall be of equal, unquestioned and universal exchangable value and of equal purchasing nower.

Another feature of great mornout is the pond-

of equal, unquestioned and universal exchangable value and of equal purchasing nower. Another issue of great moment is the pending contest is the force bill, the magnitude of whole onnex be exerted of It may mean the control of the election of representatives in congress by the bayonat. The republican party, by its nots in the Prity first congress and by its platform in its lite national convention stands pledged to the passage of this bill. That it will pass it when it has the power means man can doubt. To all of our people who desire the peace of our common country this question is all important.

Since my nomination I have been in eight of the southern and southwestern states of the Union, and have talked with all classes and conditions there. I found general and growing apprehensions of orils which it is believed would result in the passage of the Lodge bill or similar threatened logislation.

I flud the industries established by northern rapital dering Mr. Cleveland's administration in a languishing conductor; that the immigration of labor, and the investment of capital, invited to those states by their then peaceful condition, had in a large measure ceased. The encatront of a force bill into law, while it would threaten the liberius of the entire reconst of the specially a funed; would incite in many communities race troubles; and invite retalatory legislation, which would disturb property values and discontiane and destroy the security of northern investments. And its refex action upon the northern states would reader relations with the vest territory now becoming tributery to their wealth and prosperty.

I say nothing of the inherent vice of the on-American and revolutionary spirit involved in the Lodge bill, which was pronounced by a republican senator "the mast infamous that appeal to the instituct of self-interest and common justice in the American pengle. MONEY IN MINES.

A Week of Surprises in the History of Cripple Gasek Gold Camp.

DENVER, Col., Oct. 31.—The past week has been a surprising one in the Cripple Creek gold camp, and at least one big discovery has been made. The camp is all excitement over the woncamp is all excitement over the wonderful strike made in the Eclipse mine Saturday. The Eclipse is located in Ecqua gulch, and has been—a regular shipper for the two months past averaging about a carload each week. The returns from these shipments have averaged over \$100 a ton, but there was nothing in the character of the ore to prepare the men who were taking it out for the wonderful stuff that was uncovered Saturday. out for the wonderful stuff that was uncovered Saturday. At a depth of ninety-five feet a vein of white talo and crystalized quartz was encountered, the vein being apparently about four feet in width. The ore is full of rusty gold, some of it being in large cubes which even old miners pronounce the most wonderful display of free gold they have ever seen. they have ever seen.

There is much to indicate that this

camp will be what expert mining men have been claiming all along, the great-est gold camp in the world. There are now over thirty shipping mines and the advent of the railroad will double

One of the biggest strikes in the history of Creede camp has been made in the Holy Moses, the original mine of Creede. It is a four-foot vein of good ore with an eighteen-inch streak run-ning \$1,000 a ton. The Moses will at the camp.

New York to speak at a mass meeting in Brooklyn.
"What do you think of the outlook?" he was asked to-day.
"I regard it as an indication of Cleveland's election. I don't think there is any doubt about it. I have carefully looked over the situation and this is my conclusion. The chances in this state, which is no doubt the pivoted state, are decidedly in our favor. I do not expect that we shall lose a single southern state on account of the I do not expect that we shall lose a single southern state on account of the populist or any costition. West Virginia is the only state in that section that is at all in the doubtful list, but the outlook there is hopeful. It has been a quiet campaign—a campaign of education—and if Cleveland is elected it will be on the issue of tariff reform, upon which the voters have been thoroughly enlightvoters have been thoroughly enlightened. I do not know what the situa-tion in the west is, as I have not visited that part of the country."

Congressman Breckinridge was asked if he had anything to say about his declination of the invitation to speak at the dedication of the World's fair

onildings.
"Nothing at all," he replied. "That

question is a dead issue."

He expressed himself as emphatically against opening the World's fair on Sunday after congress had voted that it should be closed, but he declined to discuss the question that has been ruised as to the right of congress to legislate or interfere in religious ob-servance, or the observance of Sauday.

Would-Be Lynchers Foiled. SEATTLE, Wash., Oct. 81.—Twenty citizens of Ballard, a suburb of this city, hunted Friday night for Policeman Thomas Henry, who had been tried here for murder in the second de-gree, intending to lyuch him, but Henry was not at his home. The mayor of Ballard was at Henry's home with s well-armed posse, and there would have been bloodshed if an attack had been made. Late in the evening Henry went back to his home prepared to ne fend his life if attacked, but the citi zens did not attempt to molest him Henry was afraid to go to Ballard last night, and remained ut the sheriff's office in this city.

The Fifth Lynching in Two Weeks, BIRMINGHAM, Ala, Oct. 31.—News comes from Monroe county of the ynching of Allen Parker, colored, near Monroeville Saturday night. He had been arrested for burning a girhouse and fifteen bales of cotton, and was being taken to jail by one deputy. Two miles from town a mob of twenty masked men met the officer and tool the prisoner from him. Parker con fessed and was hanged to a tree. The hynching occurred near the place where four negroes were hanged two weeks ago for the murder of the John son family.

REFORMATION DAY.

Imperor William's Speech at Wittenburg.

THE LOST ON THE STRAWER ROUMANIA

The Trafalgar Square Demonstration-Found in a Bundle of Rage-The Salvation Army Investigation -A Patal Fall, Etc.

Berlin, Oct. 81.—The speech of Emperor William at the Wittenburg celebration to-day will be of a politico-religious nature. It will touch gingerly on the relations of church and state and the relations of church and state and will emphasize his opinion that evangelical monarchs, notably of the house of Hohenzollern, have always mude the protections of religious liberty and the toleration of heterodoxy one of the most conspicuous features of their domestic policies. Should the emperor make the last mentioned avowal unequivocally, he will discourage, the Lutheran zealots who are trying to drive Prof. Harnack from the chair of theology in the Berlin university because he does not believe in the immanulate conception.

The city of Wittenburg has been decorated magnificently in honor of today's anaiversary. Triumphal arches have been erected at it e Eister Thor, and the Augusteum, the Collegien-

have been erected at it e Elster Thor, and the Augustoum, the Collegienstrasse, Luther's house, Melanchthon's house, the Electoral place, the infantry barracks, and the whole market place are trimmed with great massos of flags and bunting. Luther's bust is in every ahop window and his picture is hung on nearly every private house. Despite the chilliness of the weather hundreds of passants who had welked to dead of passants who had welked to

dreds of peasants who had walked to the city were obliged to sleep last night in the fields or in temporary sheds. Hotels and houses are overflowing. Dr. Luther, a physician, descended from the great reformer, has gone to Wittenburg to represent the Luther family at the consecration service. The Trateigar Square Demonstration.
London. Oct 31.—The socialist committee of six appointed to arrange the Trateilgar square meeting on November 6, the anniversary of "Bloody Sunday," has formulated a resolution which will be presented and undoubtedly passed at all platforms on that day. The resolution affirms that the number of unemployed worldingmen in the United Kingdom, and especially in London, is increasing with alarming rapidity; that the sufforing during the rapidity; that the suffering during the coming winter is likely to be unprece-dented, and that, therefore, the imper-

ial government, county councils and all other bodies of authorities ought to prepare to supply employment on needed public works. The Trafalgar square meeting is being boomed and organized by H. M. Hindman, J. Hunter Watts, Shaw Maxwell and other conspicuous social demo-crats. The fund for the demonstration s under the care of William Saunders,

Death of the Queen of Wurtemberg. Beelin, Oct. 31.--A dispatch from Stuttgart announces the death of the

queen of Wurtemberg.

The dispatch in question probably does not refer to the consort of the reigning king of Wurtemberg, but Queen Olga, widow of the late King Charles I. The latter has been reported as alling for several weeks, and several times was thought to be dving. She times was thought to be dying. She was the Grand Duchess Olga of Russia, being the sister of Alexander I. and aunt of the present czar. She was born in 1822, and was married in St. Petersburg at the age of 34. She led a poor life with her husband, the most doned creature that has worn a crown in Europe.

DENYER, Col., Oct. 31.—At Trinity church, yesterday morning, Mrs. Mollie McGec, of Mississippi, delivered the annual sermon to the W. C. T. U. The nual sermon to the W. C. T. U. The opening exercises were conducted by Miss E. W. Greenwood, of Brooklyn, superintendent of the Evangelistic department, and Lady Henry Somerset made the opening prayer. Mrs Snell's subject was "The Invitation of God," and her address was one of unusual power. This invitation, she said, was sent out thousands of years ago, but was the same yesterday, to-day and forever, and was intended for every one in every age. She compared this inviin every age. She compared this invi-tation to those of men to earthly amusements and entertainments, and how infinitely more worthy of accept-

ance it was.

The various pulpits of the city were occupied both morning and evening by delegates. Lady Henry Somerset ad-dressed an audience which filled Trinity church to overflowing in spite of the heavy rain, while the other the heavy rain, while the oth-charches all had good congregations.

they found Bartlett and Miss Carter both dead
It seems from the stories told by the wife and neighbors that Bartlett had been insane at intervals for several years, the result of the great hardships he suffered in the horrible winter journey neross the Lena delta with Englineer Melville's party. Recently he had failed physically, and had been forced to practically give up work. As a consequence Miss Carpenter a short time ago wont to work as clerk in a large fancy goods store. This stop greatly depressed Bartlett, and he said it would be better if they were all dead now that he was disabled. The women fancied this talk was due to low spirits and never feared any violence. Saturday night they went to bed as usual. Bartlett that not come in until midnight. Then he approached his wife's bedand said: "Come, your turn first." Then he fired a pistol which he snatched from a bureau drawer. The buillet struck Mrs. Bartlett in the right shoulder. She run from the room and an instant later a second shot was shoulder. CHICAGO, Oct 31—Miss Emma C. Sickles, well known in Indian affairs and at the head of that department at the World's fair auxiliary, has just left and at the head of that department at the World's fair anxiliary, has just left the city for the Indian territory. She said: "Recently I attended the Creek council, where I was in pursuance of the pledge given by Col. Davis to congressmen, as one of the conditions of the World's fair bill. Through information at my command I have become couvinced that the evil consequence of the evasion of the pledges given to a desperate people—which I so carnestly tried to avert last year—are about to be realised, and that but two alternatives face our nation. Either a full, just, complete representation will be accorded, which will give this people an opportunity to participate with the other people of the world in a way which will call forth the best energies and confidence of the best Indians, or the "outbreak" which Gen. Schofield characterises as the most serious in his experience on account of the extent of its preparation and skill in its organizapreparation and skill in its organiza-tion, will be the subject which will at-tract the attention of the world next

vear. This knowledge brought me back to Chicago to report the danger. "Had a worthy representative of the of his race appeared upon the pro-gramme or been officially recognized in the exercises at the dedication of the World's fair buildings, it would have world's fair contains, it would have been an element of justice now lacking. On the contrary, politicians decided that the 'meager sum' only permitted the representation of youth to 'show what the government is doing for the Indian'."

"The Carlisle school has been in operation nearly fifteen years. Why were not some of the alumni represented? That view is carefully close from public gaze, but the condition of the returned Carliele pupils stirs the hearts of all who have hearts, and makes them understand why the pupils are the most desperate hostiles." DAILY MEPUBLICAN.

AMBHER & CALHOUN, Prop'rs DECATUR, ILLINOIS.

Entered at the Post Office at Decatur, Illinois second diagraphical matter.

MONDAY EVE., OCT. 31, 1892.

Hon, I. R. Muans, candidate for State' Attorney, in his speech at Marca, com-pletely exposed the duplicity of Mr. Webber, who is trying to deceive the voters by going to one class of people in this county and promising them, i stected, to prosecute to the full extent of the law every liquor dealer and gam oler and then promising the liquo dealers and gamblers if they will sup port him and he is elected he will des laniently by them.

FREE trade and wild-cat money in this country, must go together. The old school Democrate who in this campaign have committed their party to both, know this from experience. In the free trade period from 1846 to 1860 it was secessary to have a currency that no one outside of the country would accept in payment for anything. Wild-cat currency was that kind of money. The balance of trade during that period was against us. We were paying out money lay after day to foreign countries to make up the balences against us, and if we had not had a currency the foreigner would not have we would have been left without any money.

So FAR as we know there will be no opposition to women voting for trustees of the Illinois University. In voting, however, judges of election must see that hose women who vote have the proper nualifications. No woman who was not born in this country can vote unless she is naturalized; neither can any womavote who is under 21 years of age. Both these requirements were overlooked in many cases in the election of school directors last spring. Judges must also bear in mind that women must be registered, have separate ballots and their ballots must be deposited in separate boxee, and in no case can they be allowed to enter a voting booth. The word woman" must also be put opposite their ames on the poll book.

JUDGE H. G. WHITLOGIC, a life-long Democrat and a leading lawyer of Jackparty in a public address and esponsed Judge Whitlock cannot go with his party n account of its declarations in favor of vildest money and free trade. He is no ess a Democrat on other issues, but seming these questions of vital importnce to the people of this country, be eluses to become a party to the present fort of the Democrats to break down he prosperity of the country. There are housands of good, patriotic Democrats n every state who, like Judge Whitlock, n the coming election will be governed by their patriotism, rather than their party prejudice; men who love their country more than they love their party.

In a report of the Taylorville Democratic rally it is said that one of the speakers, Thompson W. McNeely, proved himself as thoroughly posted on the tariff as any Democrat that ever took the stump against McKinley tin and other Republican absordities." By this it would seem that every Democrat is expected to be unpatriotic enough to fight every effort our people may make to manufacture tin plate, just as the same blind leaders expected every Demcerat to rejoice over Confederate victories and deplore Union victories; to discredit every advance made in the Ameri can tin industry as they discredited every success made by the Union armies. Such leaders as these bring their party into disrepute and create within the public the suspicion that such leaders need to

be sat upon by the voters.

WILLIAM M. SPRINGER, lo his Taylorville speech on Saturday, deplored the fact that our exports to foreign countries far exceeded our imports from foreign countries, and held that a system which makes other nations help pay our ex ences and enrich our people is dis6race ful. It requires that class of states were to which Springer belongs, to come to such eilly conclusions. Nothing elso could be expected of men who in 1890 when attacking the McKinley tariff law, told the people that the removal of the tariff from sugar only affected the poorest grade of brown sugar which the people did not use, and would not obespen the augar they did use. The people are not likely, if they know what they are doing, and it is fair to presume they do to take kindly to such demagogy as Springer displayed in this part of his meent. In the last figeal year we sold \$208,000,000 more abroad than we bought from abroad and the people had that mount in each in their pockets as the result of the year's trade under the Mc-Kinley tariff law. Springer thinks this ie not creditable, to one people. His idea is that we ought to return to a tariff ! for revenue only under which we always ouy more than we sell leaving the cash balance in the pockets of the people broad. This is the idea of every free rader and is the system which always made us poor when in operation. Strange s it may seem there are men who are complaining that we have not money enough in the country, who at the same time favor a revenue tariff which will send our money out of the country. Springer is getting entirely too philanthopic to remain long on earth. He ought w be translated at once.

Afraid of a Boorback. The Democratic state central commit ee, among the literature it has sent out. nore than likely the report was a cover to an attempt at fraud on their own part a business with which most Demoratio committees in Chicago are familiar. The same rale will apply to the alarm

ter calculated to connect Mike McDonald with Altgeld's nomination, and warns all Democratic voters to look out lest they esmisled. It also proceeds to assure all Democrate that Mike was for Gen. Black, and not for Altgeld, because be was afraid he could not run Altgeld—all of which is not very complimentary to Black, who is himself General candidate on the Democratic ticket. If there is danger that Mike might injure Altgeld why will not the same rule apply as to Black? The facts are, and it is seless for the Damoerstie bosses to atempt a denial, that Mike was never for Gen. Black at any stage of the game, but Altgeld the nomination because he controlled the convention. He made the man for governor that suited him. The

was from the start for Altgeld. He gave convention for the purpose of naming a leading Democratic papers in the state, daily, for some time before the convention charged Mike with an intention to foist upon the Damocracy of the state Mr. Altgeld. Those papers knew what was going on and did what they could to prevent the Democratic convention from passing into the hands of the boss gambler of the country, which meant that in case the boss gambler controlled the convention, and the candidate he nominated for governor should be elected, ne would control the administration of the state. This is precisely the state of things the voters will have to pass upon at the election. If they desire the state to be run by Mike McDonald they should vote for Altgeld. These are the facts,

are now trying to make the honest voters pelieve that Mike McDonald was for den. Black instead of Altgeld. The truths that Democratic papers have told about Altgeld over and over again cannot become roorbacks. Altgeld s Mike McDonald's man and doss his oidding. There is, therefore, no danger hat the Republicans will put out any autruth about Michael C. and John F. they are not in the babit of doing such things. It is the Democratic party alone that is in the "Morey Letter" and "Rum Romanism and Rebellion" business Such work belongs to them.

Had Not Slept For Years, Mr. A. Jackson, an old resident of Rusk, Toxas, and manager of the magnificent new Hotel at Rusk, informs us he had not slept at night for years except in short naps, owing to incessant coughing. He was advised when very much run down to try Ballard's Horsbound Surus, he was immediately reliaved of Syrup; he was immediately relieved of his Cough and his rest improved to such a degree that he could sleep soundly all night; Mr. Jackson states: "I regard Ballard's Horehound Syrup superior to any Cough Syrup on the market, and its freedom from opium and morphine leave account intain a fitter using it. For this reacon from optim and morphine leave no constipution after using it. For this reason alone I consider it the best Cough Syrup in the world for children. My lungs are now stronger than they have been for years. This Syrup is very sooth-ing to the throat and lungs." Sold by Swearingen & Tyler. Swearingen & Tyler.

Here's What the Plasterers Think of ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROOK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery and improved methods.

Stevenson's Hostility to Union Sol-

The great conservative force in American politics, is the country, or agricultural class. Here, in quiet homes, removed from the feverish and exciting conditions incidental to city life, the tiller of the soil is content to labor for the returns so prodigally given by Mother Earth to those who apply to her for a living. Too often he is too content for his own good. Loving peace and quiet, he is apt to be unmindful of insidious influences at work all around him, which, if left unchecked, will, in a very brief time, greatly disturb his peaceful and quiet conditions. At no point is this danger more imminent than in the farmer's carelessness as to who hold the offices and who do the voting.

city politics,—and he is the apologis and mouth-piece for the anarchists as well. Will the Illinois farmers arise as one man, and smite into the dust this candidate of dangerous classes—or go on dreaming of peace and security? Will they vote—or stay in the cornfleids, or at other farm work, while the

All boys and girls know that Oct. 31 is "All Hallowe'en." They know that it is by announce to the World's fair dia night of mirth and mystery, especially spells. The history of the day simply told is this: Many centuries ago the Roman church, finding it impossible from the great and constant.

ly increasing multitude of the gloved affair from first to last, and that in their late action in closing the collection. ach one, decreed that November 1 should thenceforward be kept as a day n honor of all the saints having no special day, and should be known as "All Hallowmas" or "All Saints' day," and tnat the night of October 81, immediately preceding it, should be kept as a vigil and he known as "All Hallowe'en," occa sions still observed in the Catholic

Episcopal and Lutheran churches. Hallowe'en has always been and still i regarded as the time when romantic young men and maidens may solve the momentous question. "Who is to marry whom?" Hallowe'en has also recently sequired a prominence as an event especially adapted for social gatherings when mysterious games and fortune-tellinge are the popular amusement. Decatur's young people are not disposed to let the occasion go buy unnoticed, and this evening many a pleasant company will gather in lighted halls and participate in those pleasant pastimes that have

made Hallowe'n so memorable. Another phase of the day, or evening rather, is that which "makes night hide ous," for the small boy, and some not so small sither, have taken the order of preceedings into their own hands. It is a boy enjoys. I is unnecessary to advise everybody to chain his gate, and close his shutters, and put extra bolts in the fastenings of his sign boards. Those who have little regard for other people's feelinge will doubtless be abroad.

SUNDAY AT THE FAIR.

French Demand that the World's Fair be Opened on Sundays. New York, Oct 31.—Mme. Hyacinthe Loison, of France, who for several years has been engaged in advocating Ohristian unity, is registered at the Fifth-avenue hotel. She has just returned from a tour in the west. Mme turned from a tour in the west. Mine.
Loison is taking unusual interest in
the Sunday question at the World's
Columbian exposition
if yesterday she said:
"The fair should and must be kept

open on Sunday for the multitude of visitors who will crowd the city of Chi-cago Closing the fair on Sunday would compel them to seek diversion in the-aters, concert halls and saloons, and lead them into all kinds of victous amusements; but if the fair is kept open amusements; out it the fair is kept open on that day it is not proposed to make them like a continental Sunday nor the Sunday of the Paris exposition. The idea that is advosated by Christiam men and women is that all the machinery and traffic shall be stopped and that perfect quiet so far us it is consistent. perfect quiet so far as it is consistent with the crowds, shall be observed and maintained, that there shall be services and sermons in twenty differ-ent languages for the benefit of all nationalities; and chiming bells in various parts of the fair grounds; in short it must be a holy Sunday. We think we shall succeed in our efforts to have such a Sunday at the tair."

Chicago Socialists Want the World's Fair Opened of Evenings. Cuicago, Oct. 81,-The American sec tion of the socialist labor party met yesterday afternoon to discuss the action of the World's commission in closing the gates of the fair at 7 o'clock week days. Resolutions were adopted that the wage-earners have come to the

rectory and to the public generally, that from the start it has been too painfully evident that the national and local directors of the fair have been been too painfully evident that the national and local direc-tors of the fair have been unanimous in their determination to make of the great Columbian exposi-tion an aristocratic, plutocratic, kidin opportunity of gazing on the marrelous results of their own industry. the people clearly perceive that they have received a polite invitation to stay away. Then follows a denunciation of the exercises, and the resolutions clos as follows:

Resolved, That this body of wage-workers, on behalf of their fellow laborers of all lands, demand that the World's fair shall be open on Sunday or kept open each week day until 11 o'clock p. m.
